Miss Emma Calve, noted soprano (right), conducts American pupils studying at her chateau through the summer on a daily promenade through Paris.

Federal Forces Chasing Outlaw Gang

MEXICO CITY, June 26.—Federal forces in Durango are redoubling their effort to round up the outlaw gang that is alleged to have kidnapped R. A. Newman, an American, from a ranch at Guadalupe on April 25. The authorities renewed their activities following a report that the leader of the outlaws, Joan Galindo, had been murdered by his followers because he wanted to surrender Newman and end the pursuit.

Asthma

Why suffer? Dr. Kinsman's Asthma Remedy gives instant relief. 25 years of success. 75c. at all druggists. Avoid substitutes. Trial Treatment mailed Free. Write to Dr. F. G. Kinsman, Post Office, Augusta, Maine.

CORNS

Safe relief in one minute

For that painful corn here's safe, speedy relief—Dr. Scholl's Zino-pads. They remove the cause—friction—pressure, and heal the irritation. Thus you avoid infection from cutting your corns or using corrosive acids. Thin, antiseptic, waterproof. Sizes for corns, callouses, bunions. Get a box today at your druggist's or shoe dealer's.

Dr. Scholl's Zino-pads

Put one on—the pain is gone!

IN QUESTION

Don't Need to Have High Blood Pressure

Normal, a doctor's prescription, will reduce high blood pressure as thousands of people know, and when high blood pressure goes you will have no more dizzy spells, nervousness, pains in the head or hot flashes. You will sleep and eat better too.

A. W. Jones Co. sells Noman—so do reliable druggists everywhere.—Ad.

HOW THE "COPS" FOOLED THE FORTUNE TELLERS

Pretending to be innocent laborers and imitating freely of a bottle of water, supposed to be "spirits," Officers Alfred Cooney and Frank J. O'Dea, last night visited the fortune-telling parlor of Annie Stevens and Marie Mark, in Middlesex street, near Kings, and arrested those two women on charges of larceny. The place had been under surveillance for some time, but it was not until last night that the officers deemed it expedient to get the evidence.

Dressed in shabby clothes, they entered the establishment, having a

number of marked bills in their pockets. While one of the women was telling the past, present and future of Officer Cooney, the other approached him and felt his pockets for the money. The fortune-teller informed Officer Cooney that he would live to be 80 years of age and would be the father of 12 children. This startling information cost the officer \$3, while Officer O'Dea was forced to part with \$1 for revelations made known to him. He was to have a beautiful home. When the women had accepted the money, the patrol with Sergt. Winn and Officer Moore were signalled and the pair arrested in the district court this morning they were allowed to go with the understanding that they get out of the city within three days. Failure to do so will mean three months in the house of correction for each.

SENDS PRAISE

Mr. W. H. Benson of Baltimore, had considerable worry about his daughter. For over a year he was kept in anxiety, but it seems from the following letter that he and his daughter are both worry-free now: "I have been talking about your Dr. True's Elixir. It is great stuff! The Elixir is doing good work for my daughter; please send us two bottles. Yours for health," W. H. Benson.

Scores and scores of such letters show us that Dr. True's Elixir has been most successful for use in relieving constipation.

Watch these symptoms: Constipation, sour stomach, biliousness, cramps, eyes heavy and dull, bad breath, all gone feeling, headaches. They may lead to more serious conditions—bad colds, grippe, etc. To ward off or make attack light take Dr. True's Elixir. 40c—50c—\$1.29—Adv.

AIR FORCE FOR HOME DEFENCE

England to Be Ready for Any Attack in Air in the Future
Prime Minister Says
Premier Baldwin Makes Such Announcement in House of Commons

LONDON, June 26.—(By the Associated Press) Prime Minister Baldwin announced in the house of commons this afternoon that the government had decided to establish a home defense air force sufficiently strong to defend the country adequately from attack by the strongest air force within striking distance.

The Telephone Strike

Continued
normal service, judging from the promptness with which calls were put through, with a few exceptions, the chief of these exceptions were Waltham and Newton, where a large percentage of the operators struck and service was badly crippled. These two cities were described as virtually out of telephonic communication with the world during the morning. Strike leaders claimed that the Somerville exchange was tied up, but company officials asserted that service was normal there.

Outside of Boston the strike was virtually without effect in Maine, New Hampshire and Vermont while it had almost crippled service in Providence and Pawtucket. R. I. and had resulted in large numbers of operators quitting work in several Massachusetts cities. The strike leaders up to now had issued no report on outside conditions.

Figures given out by the telephone company at 11:30 a. m. gave the following as representing the percentage of operators remaining at work in the Massachusetts cities and towns indicated:

Worcester, 40 per cent; Springfield, 35; Fitchburg, 30; Lynn, 25; Salem, 20; Brockton, 20; Marlboro, 10; Newburyport, 10; Westfield, 10; Attleboro, 10; Milford, 10; Lawrence, 10; Rockland, 10; Fall River, 10.

Conditions in Lowell, North Adams, Pittsfield, Greenfield, Taunton and the Cape Cod district were described by the company's statement as normal.

Strike pickets were stationed near all exchanges in this city and a large number of outside points. Members of the old local I. A. which is not in sympathy with the strike for increased wages and shorter working hours, had counter-pickets at some of the exchanges in Boston, who tried to counter the efforts of the strikers to prevent girls from going to work. During the forenoon, there were no serious clashes, although there were a few scattered remarks from both sides. Pickets on duty near the exchanges found little to do.

An unknown number of pickets were seen fruitlessly by persons who attempted to put in calls from slot machines in the district seriously affected by the strike, such as Beach and Richmond. Several did not answer after the card was dropped and the machine refused all efforts to get back the money.

Miss Annie Molloy, president of old I. A. local, Boston Telephone operators union which has been to join the strike, said she was well satisfied with the reports that came to her of the condition in Boston exchanges.

Large Cities Hardest Hit

BOSTON, June 26.—The telephone operators' strike which started at 7 a. m. today, showed its greatest effect, so far as cities outside of Boston are concerned, in Providence and Pawtucket. R. I. Worcester, Springfield, Salem, Brockton, Marlboro and Fall River, and in New Hampshire outside of Manchester reported few operators on strike, and virtually normal service. At Providence, the second largest city in New England, telephone service was virtually crippled during the forenoon. Nearly all the operators were on strike. At Pawtucket, where only two operators reported for the early shift, the company had brought in some workers from outside the city. In Providence, the second largest city in New England, telephone service was virtually crippled during the forenoon. Nearly all the operators were on strike. At Pawtucket, where only two operators reported for the early shift, the company had brought in some workers from outside the city.

Other places in Worcester county reported normal conditions. Of the early shift of 25 in Brockton, only five reported for duty this morning. Fifteen men were being called in by the exchange. North Adams, where virtually normal in towns near Brockton except Middleboro, where 13 operators were on strike and also in the Plymouth district.

In Lawrence, union leaders said only three or four operators out of 18 employed on the early shift had reported for work. The company admitted that some were out, but said that a new force was being built up.

Eighty per cent of the operators at Salem were on strike. Partial service was maintained. Mrs. Blanche R. Cross, president of the Salem local of the striking union was at work and said she had resigned her union office. The vice president was in charge of the strike. Cities near Salem reported all operators at work.

There were conflicting claims at Manchester, N. H. The union claimed that all operators were on strike, while the company declared that switchboards were fully manned. A company statement said that service through out New Hampshire was normal and that all operators had reported for work at the usual time.

In Maine interference with service and no operators on strike were reported excepting for the walking out of half a dozen operators in Portland and one in Lewiston. Vermont reported no indications of a strike.

Salem Reports 80 Per Cent Out

SALEM, June 26.—Eighty per cent of the 145 operators in the Salem exchange are out on strike. The local switchboard is being operated by a crew of local employees including some regulars. The men in the department, important toll calls are being cared for by a crew of six.

The most important development was the admission by Mrs. Blanche R. Cross that she had resigned as president of local 16-A, the striking union and she was one of those at work at the exchange today. Miss Gertrude A. Phillips, vice-president, is in charge of the strike. The exchange is picketed but there is no disorder. No trouble is experienced in the exchange Salem places, normal crews being reported at Beardsley, Beverly, Danvers and Marblehead.

No Toll Calls Accepted

LAWRENCE, June 26.—Local telephone officials stated that the work of building up the depleted forces is already under way. Both permanent and temporary positions are offered girls over 17, with or without experience. It was announced, 1 p. m. that the middle of the machine, toll calls were accepted at the local exchange.

It was said that the public is following the request of the management that no more calls be put in than is necessary.

Haverhill Running Full

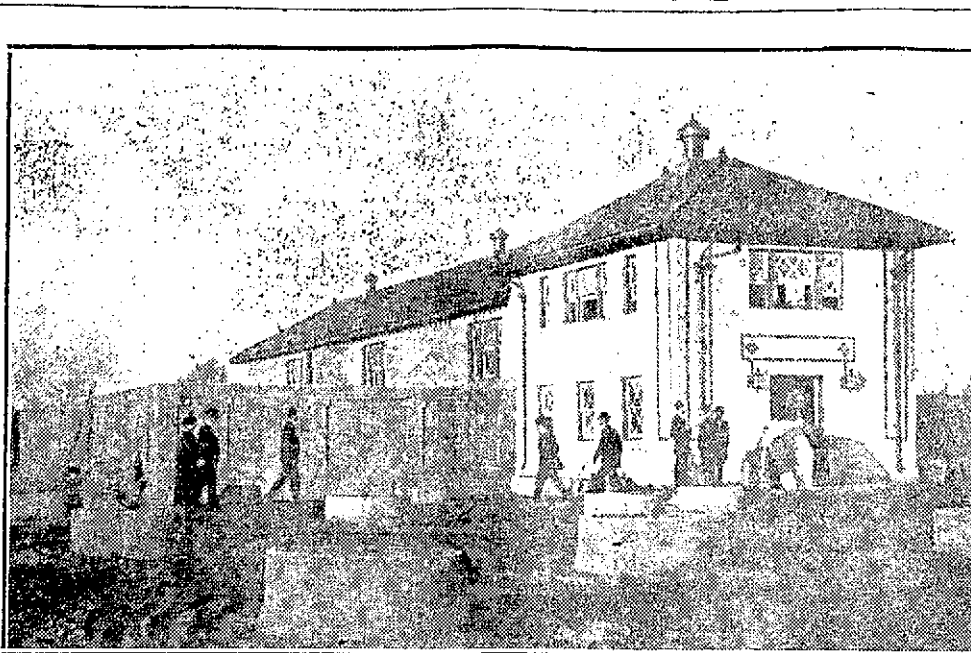

HAVERHILL, June 26.—Manager Bennett of the Haverhill exchange says that his office is running full per cent. Every employee remains loyal to the company and not a single operator has quit her post.

Filling Strikers' Places

BOSTON, June 26.—An estimate that the telephone service in Boston Continued on Page Five

SIMPLE PORTLANDS

Foodstuffs of the simplest type have collected and are held in at the warehouse with a rubber band.

FILTRATION PLANT, SHOWING MAIN BUILDING AND ONE SET OF COKE FILTERS

Coke Being Renewed in Filtration Plant

Continued

renewed nature of the coke, water stands to a depth of several inches. Water comes from the coke filters in a raw state, or direct from the wells and is aerated through 80 spray nozzles in each bed. As it falls back on to the coke it is supposed to disappear instantly in its passage through the 12-foot bed, but with the old coke, now eight years old, it is aerated faster than the beds can drink it in.

The new coke beds will not necessarily give any purer water than it being aerated at present, but they will relieve the sand filters of a great deal of extra work and will hasten the progress of the water through the pre-filters. With new coke, or coke in proper condition, a filter bed should flush out in about five minutes, but with the old coke the flushing process takes three or four hours.

It is a fact that Lowell people rarely visit the filtration plant. There are thousands who do not know where it

is and there are other thousands who do not know what it is even when they pass it. It is of importance, however, and has attracted water engineers from many foreign countries. It is considered one of the finest plants in the world and its system has been made the subject of no little study.

It may be of interest, or rather, it should be of interest, inasmuch as practically everyone is a water consumer, to know a little about how our water is given to us in a state of purity.

If it were possible to regenerate a block of water, say a cubic foot in size and watch its passage from the moment it leaves one of the driven wells and begins its travel to the filtration plant, it would be found out that it takes that block of water just seven hours to reach the reservoir on top of Christian Hill.

As raw water it travels from the wells direct to the coke filters, passing through the spray nozzles for aeration and then seeping through the coke which is supposed to take out of it 96 per cent of all metal deposit. From there the water goes to the huge settling basins where it is kept for

four hours before passing on to the sand filter which completes the job of purification by taking out all manganese.

The water then is pumped to the

reservoir and distributed from there to homes all over the city.

When the coke filters are unsatisfactory they remove a ton of metal from the water every week.

The big question, or problem now bothering Assistant Superintendent J. H. Reynolds, in charge of the filtration plant, is what to do with the 250 tons of old coke being taken out of the filters. When dried out it is just as good for fuel as when first manufactured. It is said, and as the city does not use coke, a selling and distribution problem will have to be solved before next winter. The water department does not want the coke and will be very glad to sell it if proper arrangements can be made.

Mr. Reynolds' right hand man at the plant is his foreman, Martin A. Murphy and either of them will be only too glad to show anyone interested about the plant. It is educational in the extreme and not difficult to grasp.

BOY DROWNED IN MERRIMACK RIVER

FRANKLIN, N. H., June 26.—Alvin Sturtevant of Bristol was drowned while bathing with other boys in the Merrimack river today. He could not swim and went beyond his depth.

FOURTH OF JULY OBSERVANCE

The municipal observance of Fourth of July in this city will consist of band concerts and fireworks on the South common. The concerts will be given between the hours of 3 and 5 in the afternoon and 7:15 and 9:15 in the evening. At 9:15, the annual fireworks will be carried out on the higher part of the common by the American Fireworks Co. of Boston.

ELECTION BOARD BUSY

Employees of the election department are busy these days mailing out letters to voters whose names have been dropped from the check list. This work will not be completed until the latter part of next week and not until that time will the board be ready to give out figures concerning the number of names that were dropped.

Judge Says Unregistered Car Outlaw on the Road

Continued
drunkness. All but Maurice were offenders and were released. The latter was sentenced to one month in the house of correction.

A finding of not guilty was returned in the case of Walter Dion, charged with assault and battery on George Smith. According to the testimony of two witnesses, Smith entered Dion's restaurant in Moody street a week ago Saturday night in a drunken condition, took a chair at a table and went to sleep. When he awoke he demanded something to eat and became so obstinately to the proprietor that he was finally ejected. Going out the door, he slipped and fell to the sidewalk, receiving injuries which necessitated his removal to the hospital.

Domestic Robert pleaded guilty to illegally keeping intoxicating liquor and was ordered to pay a fine of \$100. Charges of illegal keeping against Sam Skalkous and William O'Rourke, 14, were continued until July 6 and 7, respectively.

George McGinn pleaded guilty to drunkenness and was given three weeks in which to pay a fine of \$10. Suspended sentences of three and four months, respectively, were imposed on Patrick F. Dowling and Joseph Charon, both charged with drunkenness.

Martin Rupp's anties created a sensation in Andover street, near Concord yesterday and he was given three weeks in which to pay a fine of \$10. He pleaded not guilty in court this morning, but the evidence of the arresting officers was sufficient to warrant a fine of \$5. He paid.

A larceny charge against Vaselos Michalopoulos was continued until July 2, and a charge of felonious assault against Alphonse Chouharel, to July 3.

Paquette-Duprez
Mr. Francis R. Paquette and Miss Rose Eva Duprez were married yesterday afternoon at St. Joseph's rectory. The ceremony being performed by Rev. Alphonsus Archambault, O.M.I.

The bride wore white satin with veil caught up with blue of the valley and she carried a bouquet of white roses and lilies of the valley. She was given away by her father, Mr. Henri Duprez, while the groom was attended by his father, Mr. Charles Paquette. At the close of the ceremony a wedding supper was held at the home of the bride, 129 Willie street, followed by a reception. The happy couple left on their evening on a week's honeymoon trip to New York and upon their return they will take their home at 129 Willie street. In attendance at the wedding were guests from Nahant, Manchester, N. H., and Lawrence and Milford.

Hubert-Arpin
The wedding of Mrs. Adelbert Hubert and Miss Ora Arpin took place yesterday afternoon at 4 o'clock at Notre Dame de Lourdes rectory, officiating clergyman being Rev. J. A. Paquet, O.M.I. The bride was wearing white with veil and carried a bouquet of white roses and lilies of the valley. She was given away by her father, Mr. Henri Arpin, while the groom was attended by his father, Mr. Charles Hubert. At the close of the ceremony a wedding supper was held at the home of the bride, 129 Willie street, followed by a reception. MATRIMONIAL

Mr. Roland E. Gay and Miss Gladys M. Jacobs were married yesterday at the parsonage of the Central Baptist church, the ceremony being performed by Rev. W. J. Satter. The best man was Mr. Walter Gay, a brother of the bridegroom, while the matron of honor was Mrs. Grace Chatham, a sister of the bride. After an extended honeymoon trip the couple will make their home at 21 Hall street, Fitchburg.

Dances-Gosselin

The marriage of Mr. Patrick Francis Gosselin and Miss Marie Madeleine Gosselin took place yesterday afternoon at St. Joseph's rectory, the ceremony being performed by Rev. Alphonsus Archambault, O.M.I. Mr. Paul Bailey was best man, while the bride's maid was Miss Annette Gosselin. The couple will make their home at 743 Merrimack street.

Greenwood-Rahmison

Mr. Frank Greenwood of Lawrence and Miss Nora Rahmison of this city were married Saturday at the home of the bride, 20 Linn street, by Rev. Charles L. Fowler. Mr. Louis Fontaine of Lawrence was best man, while the bride's maid was Miss Louise Noyes. The couple will make their home in Lawrence.

Larmond-Beaucorand

At St. Louis church yesterday, Mr. Leo H. Larmond and Miss Anna Beaucorand were united in marriage, the ceremony being performed by the pastor, Rev. J. B. Labossiere. After the ceremony a reception was held at the home of the bride, 117 Ennall street, where the couple will make their home.

McClure-Gill

Mr. Charles G. McClure and Miss Mary J. Gill, both popular young people of this city were married yesterday afternoon at the Immaculate Conception chapel. Rev. Owen P. McQuaid, O.M.I., performed the ceremony. Mr. William J. McClure, a brother of the bridegroom, acted as best man, while Miss Lena Gill, sister of the bride, was the bride-maid. The bride was beautifully attired in orchid crepe with hat to match, and carried a shower bouquet of white roses. The bride-maid wore grey crepe with hat to match, and carried pink roses. The gift of the bride to the bride-maid was a mesh bag, while the bridegroom presented his best man a set of C. Embury ring. After the wedding a reception was held at home of the bride's parents, Mr. and Mrs. Patrick Gill, of 105 Concord street. Mr. and Mrs. McClure, who received numerous pretty and useful gifts left on a wedding trip by motor. They will reside in Boston upon their return after August 1.

Paquette-Duprez

Mr. Francis R. Paquette and Miss Rose Eva Duprez were married yesterday afternoon at St. Joseph's rectory. The ceremony being performed by Rev. Alphonsus Archambault, O.M.I. The bride wore white satin with veil caught up with blue of the valley and she carried a bouquet of white roses and lilies of the valley. The wedding of Mrs. Adelbert Hubert and Miss Ora Arpin took place yesterday afternoon at 4 o'clock at Notre Dame de Lourdes rectory, officiating clergyman being Rev. J. A. Paquet, O.M.I. The bride was wearing white with veil and carried a bouquet of white roses and lilies of the valley. She was given away by her father, Mr. Henri Arpin, while the groom was attended by his father, Mr. Charles Hubert. At the close of the ceremony a wedding supper was held at the home of the bride, 129 Willie street, followed by a reception. The happy couple left on their evening on a week's honeymoon trip to New York and upon their return they will take their home at 129 Willie street. In attendance at the wedding were guests from Nahant, Manchester, N. H., and Lawrence and Milford.

Lang Beats Champion

PHILADELPHIA, June 26.—Jerome Lang of Columbia university today defeated Arnold W. Jones of Yale, national junior singles champion, 5-7, 6-2, 6-4, in the third round of the national intercollegiate tennis tournament. Lang is holder of the New York state intercollegiate singles championship.

Johnston Wins Match

WIMBLEDON, June 26.—(By the Associated Press)—William Johnston No. 2 ranking American, defeated E. Higgs of England in straight sets, 6-4, 6-1, 6-1.

FUNERAL NOTICES

WIDEN.—Died in North Billerica, June 25, at the home of his sister, 5, Heatham road, Edward G. Widen, aged 37 years and 18 days. Funeral services will be held at 2 o'clock on Thursday afternoon at 2 o'clock. Friends invited. Undertaker of William H. Saunders in charge.

WIDEN.—Died in this city, June 25, at 2 o'clock, Edward G. Widen, aged 37 years and 18 days. Funeral services will be held at 2 o'clock on Thursday afternoon at 2 o'clock. Friends invited. Undertaker of William H. Saunders in charge.

THAT SHIMMY TYPEWRITER GLIDE!

Miss Ramona Wright, typewriter teacher in the Lapeer (Mich.) high school, has brought jazz into the classroom. She uses a phonograph to aid pupils. "The jazzier the record, the greater the speed attained," she says.

GREAT CARE IS NEEDED IN CUTTING ART

Never attempt to cut out on a small space. If you have not a cutting table, use the kitchen table. Use pins lavishly and bustle freely and carefully. If you insist upon making linings instead of buying them ready made, make several at a time.

Be sure that all bias effects, skirt breadths, bodices or trimmings on really bias and paste through the center always cut exactly on a straight diagonal line from corner to corner of a square of goods. Lay a fold down the center of the back lining and a narrower one from the shoulders in front. Do not stretch any part of the material, but have all linings a trifle loose.

Match the parts carefully together and sew them from the bottom up, both skirts and bodices. Never stretch a curved seam. Make the shoulder seams as nearly a straight line as possible, but with the front a trifle shorter than the back. Then in sewing stretch the front to fit, basing with small stitches. This stretching process gives a hint of all. It is estimated that the atmosphere of the planet Venus contains less than one-thousandth of the amount of der.

If the arm curve in the lining is too large or bulges, make a tiny pleat.

triangular fold, but the outside material must be cut to fit, as nothing can be done to alter it if it is too large. If the lining or outside is too tight, cut the curve a little. Putting in pleats is one of the most difficult processes in dressmaking. Turn a thread around the armhole to prevent stretching. Fit the sleeve into its armhole on the figure, pinning carefully. Remove, bustle, then try on again. No one rule fits all sleeves, but for the long, plain variety, cut so that the portion between the center elbow and the center shoulder is on the straight of the goods. The arm hole and hem or bind selvages, rise they will pusher. Soak them or leave plain. Stretch all skirt seams and sew with a long stitch. Where possible always put a gored edge with a straight, but if two gored edges come together be careful not to stretch them.

CHANGES IN TRAIN SCHEDULE

There are two changes in the new train schedule of the Boston & Maine railroad, which went into effect yesterday, that affect the Lowell service. While no trains have been taken out or new ones added, the train which formerly left Boston for Lowell at 1:20 and the former 9:22 train for Boston leaves at 8:45 p. m., daylight saving time.

It is estimated that the atmosphere of the planet Venus contains less than one-thousandth of the amount of der.

MOONLIGHT BATHING AT CITY BATH HOUSE

Hundreds of children and adults kept cool in the waters of the Merrimack last night long after the municipal bath house had closed its doors at 8:30 o'clock. It was real moonlight bathing, too, for a lustrous moon, full Thursday night, added beauty to the scene.

Last night was one of the hottest of the season, although it cooled off perceptibly toward morning when gathering clouds forecasted rain that failed to materialize.

There is no barrier to moonlight or late evening bathing at the city pool, although no suits can be obtained at the bath house after 8:30 o'clock, which is the scheduled time for closing.

An afternoon frock of white voile is elaborately trimmed with black lace, and has a grade of emerald velvet.

PITTSBURGH HOLOCAUST'S RIVER OF FIRE

A bolt of lightning and a tank of oil. Well, here's how they mixed in a Pittsburg refinery. Flames spread quickly to other giant containers. Many were injured. Property loss was estimated at \$200,000. It looks like the river's on fire. But it's thousands of gallons of burning oil. Only a change in wind saved the big Sharpsburg bridge, across the Allegheny river.

WARNING

You who use Palmolive Soap use it for beauty's sake. Be careful that you get it. There are many soaps made to deceive you. They imitate the shape and color. Names are coined to sound like Palmolive. Numerous soaps—some of them wretched soaps—are put in this guise to mislead you.

Our interests do not matter, but yours do. Your demand is for Palmolive, because of what it does. You are seeking certain proved results. And you are cheated when you get a soap which can't bring those results.

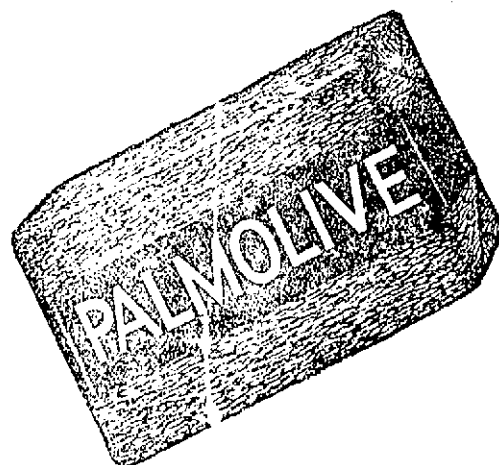

Palmolive Soap has world-wide fame because it aids complexions.

The envied results, seen everywhere, have won millions of people to it. Thus Palmolive became the world's leading toilet soap. Not merely because of olive oil—that's ages old. Not merely because of palm oil—Cleopatra used that. But because our experts found a way to give those oils unique efficiency in soap.

It is Palmolive Soap that has won beauty lovers as no other soap ever did. It is the Palmolive blend—based on 60 years of study—that brings those desired results. It is Palmolive which, by enormous production, gives you a 25-cent quality for 10 cents.

That is what won you—that is what you want. A commonplace soap without those virtues will not suit or serve you. Then be careful. Note the name carefully. Be sure you get the wrapper shown below. Don't let anybody cheat you on a thing that means so much.

He's a Mapl-Flaker

Mapl-Flake for breakfast,
Mapl-Flake for lunch,
Mapl-Flake for supper
Gives us kids the "punch."

There are lots of folks looking for "the punch"—and the surest way to get it is to eat the right things for breakfast.

The "Mapl-Flakers" meet every morning at the breakfast table. Each one eats a big bowlful of Mapl-Flake and starts out the day feeling fit.

Mapl-Flake is 25% Bran. It is more than nourishment—it is a whole wheat flake with all the bran left in. There is enough bran to make a natural, harmless laxative, yet you have the satisfaction of eating tasty, appetizing, nourishing breakfast food.

Nourishment and bran combined—good eating while you "take your bran" without knowing it. No wonder there are so many "Mapl-Flakers." Join them—a package from your grocer entitles you to membership. The dues are small.

NEXT GAME
Thursday night, June 27, Y. M. C. A. vs. M. C. C.

The Highland Daylights, who have been the leading team in the Twilight League for the past several weeks, are in great form tonight. They have won their last three games in a row, and are now in the lead. The team is made up of some of the best players in the league, and they are playing with great spirit and determination. They are sure to win tonight's game, and will clinch the top place in the league.

The game was a close one, with both teams playing well. The Highland Daylights were in the lead for most of the game, but the other team fought hard to catch up. In the end, the Highland Daylights won by a score of 10 to 0. This was a very good win for them, and it shows that they are in great form.

TOMMY'S, HAVING FINE TIME IN SHELBY

WHERE THE GIBBONS FAMILY IS LIVING WHILE IN SHELBY

DEMPSEY WAS CRUDE BEHIND THE LINES AT SEVEN STRAIGHT FOR GIANTS NOW

Champion Was a Sorry Prospect When He Started Back in 1915

NEW YORK, June 26.—Jack Dempsey, who defends his title in a ten-round match with Tom Gibbons, of Shelby, Mont., June 26.—There's going to be a fight in Shelby on July 4, rain or shine.

If old knockout pluvius gets in a rainmaker, Dempsey and Gibbons may not fight, but the fans will. For their lives.

Shelby isn't advertising the fact, but it's national headquarters for gumbo mud. Ever hear of it? It's the human Tanglefoot. One-half inch of rain, plus most any point of Main street. That's the feeling.

One late center, wading through at two days of rain, says he discovered a Chinaman's queue as he was trying to pull himself back to earth, and points to this as evidence that the mud must be at least six miles deep.

Crooks follow a crowd, especially a money-spending fight crowd. But they won't follow the crowd at Shelby, because the crowd isn't going to the house.

Police Chief "Shel" Alsop will attend to that. Alsop is a head-headed old policeman whose reputation is to play dumb for a purpose. He is a good cop, and he is a good fighter. He is a good cop, and he is a good fighter. He is a good cop, and he is a good fighter.

THE MASSACHUSETTS TWILIGHT LEAGUE

Chet Nichols, pitching ace of the Worcester club, and Al Davidson, premier hurler of the Abbot Worsted club, are slated to oppose each other in the second game of the Central Massachusetts Twilight League at Grandville tonight. The visitors defeated the Grandville representatives Saturday in a ten-round battle.

Owen Carroll of Holy Cross, reported to be the best intercollegiate twirler in recent years, will pitch for the Abbot Worsted club. He is a right-handed pitcher, and he is a good fighter. He is a good cop, and he is a good fighter.

BROWN'S EYE HELPED BY BONE REMOVAL

The lums and bumps of the boxing game are much to be preferred to the surgeon's knife, stated Newport Johnny Brown at training quarters in Boston Square yesterday. Johnny has recently undergone an operation on his eye, and evidently his experience in the hospital was anything but pleasant.

"Newport Johnny Brown is one of the hardest hitting featherweights in the world. In his last few encounters he has been terribly handicapped by a bone in his eye. It has been removed, and this injury has lost him several contests. The bone has been removed and Johnny will undoubtedly hit the same old stuff which humbled boys like Red Chapman and Earl Baird."

In preparing for his meeting with Billy Murphy next Saturday afternoon at Spaulding Park Brown has procured a couple of local southpaws as sparring partners. The Newport slugger is really a right hand puncher anyway so that a left-hander should carry no real terror for him.

Murphy is down at his summer training quarters in the Beverly Cy. clubhouse. Reports have that his hands are putting more care into his preparation for the Brown clash than they have ever shown in any previous fight for a contest here. The coming contest is an important one for each boy and two exceptionally trained athletes are certain to climb through the ropes when the main event is announced Saturday afternoon.

Entrances will open promptly at 6 o'clock.

JACK WILL BE IN TRIM WHEN GONG SOUNDS

BY WILSON ROSS
N. E. A. FIGHT EXPLAINS
SHELBY, Mont., June 26.—It used to be said of Jack Dempsey that his offense was practically all the defense he had. And it was some defense at that—when the other fellow was kept too busy trying to keep from getting sunk by that awful pair of fists to do much attacking of his own.

But you can no longer say that Jack has no defense except that offense.

For the biggest part of his training in the camp at Great Falls has been devoted to the development of a real defense. The champion has always had an offense—he didn't need to do any developing along that line.

But the more I watch his daily workouts in the hall off the bluff overlooking the Missouri river, the more I am impressed with the caliber of the defense he is developing under the leadership of Manager Jack Kearns.

Works Scientifically Now

For Kearns knows that in facing Tommy Gibbons, a lad who has sunk to the count of ten exactly 32 of the 37 opponents he has battled in the last six years, Dempsey may have to do some blocking and ducking of blows that have the force of a piledriver behind them.

So you and Jack Kearns in the ring as the third man in practically every one of Dempsey's practice sessions out here in Montana. And before each and every round of mitt-work, Kearns whispers some bit of instructions to Dempsey's opponent as to what line of attack he wants the latter to take in that particular round.

Kearns never says a word to Dempsey, himself, before one of these rounds. The champion gets no tip as to what is coming. He gets his orders in advance of the whole day's workout to do lots of ducking and blocking, plenty of footwork.

And take it from me, Jack Dempsey is developing into a boxer as well as a fighter. He always was the latter. But he's showing more science and ring generalship right now than he ever did in his whole career.

GERMANS THROW BOMBS

Using This Means to Keep Civilians From French Controlled Trains

WIESBADEN, Germany, June 26.—(By the German press) In the effort to deter German civilians from patronizing trains controlled by the French, a bomb was thrown early today into the waiting room of the Wiesbaden station where a large number of German civilians were waiting for the explosion. The explosion wounded two persons seriously and causing considerable property damage.

ETHEL BARRYMORE SUES FOR DIVORCE

PROVIDENCE, June 26.—Ethel Barrymore, noted actress, has begun suit for a divorce from her husband, Russell G. Colt, son of the late Col. Samuel P. Colt, millionaire rubber king, who died two years ago. Papers in the suit have been filed in the superior court of this state and the case is set for hearing during the week of July 2. It is expected that the suit will be contested.

Although the couple have been living apart for several years, the announcement today that action for divorce had already been begun was a surprise to friends.

Miss Barrymore has brought the action and her attorneys, Gardner, Moss & Hagman, arranged for the service of the writ on Col. Deputy Sheriff Nelson Pratt was given the writ and met young Colt by appointment at the clear counter in the Billmore hotel in this city. This was April 23, but it is clear that the papers have been laid aside in the office of the clerk of superior court.

Under the terms of the will of Col. Samuel P. Colt, Russell G. Colt, Ethel Barrymore, her wife, and their three children were all named as beneficiaries. Mr. Colt, besides receiving \$100,000 outright, also received one-sixth of the residuary estate. He also received Linden Place, the beautiful Bristol residence of Colonel Colt, for a home for himself and his family.

In addition to a joint share with her husband in this estate, Ethel Barrymore, Col. Colt received \$25,000 outright in Colonel Colt's will. Each one of their three children received \$25,000. They are Samuel Colt, John Dreyer and Earl Colt.

The Colts are rolling in their real estate in Bristol and other parts of the state.

FIVE SEEK TO BE HAVERHILL CHIEF

HAVERHILL, June 26.—Members of the municipal council yesterday afternoon held a conference when the city marshals' election was discussed, but no agreement was reached other than that the election be held at the regular meeting today. The conference was called by Mayor McFee and Aldermen Bartlett, Martin, Manning and Lewis present. Alderman Bartlett recommended the promotion of Deputy Marshal Harlan W. Pearson, but he was the only one present to declare his choice and after an hour's discussion the conference ended.

An order for the retirement of City Marshal Allen M. Worcester on half pay, he having submitted a request to be placed on the pension list three weeks ago, will probably be passed tomorrow.

Besides Deputy Marshal Pearson, Sergt. William A. Gavin and Patrolmen William H. Foren, George E. Klingemann and Edward G. J. Ryan are the most active candidates.

BALTIC DEPARTS MINUS LIQUOR

Its Return Supply Now Stored
in Government Warehouses
in New York

Nine More Ships, Arriving
Today, Will Also Lose
Their Liquor Supply

NEW YORK, June 26.—While nine ships of five nations were coming up the harbor from quarantine with return liquor supplies under their government's seal, customs officials prepared today to continue the policy inaugurated last week and seize the surplus "medicinal" liquor on six other foreign liners already in port. The nine new comers will be treated in turn.

The first ship to suffer the loss of its return supply, the Baltic of the White Star line, left port yesterday and the Berengaria of the Cunard line, its immediate successor, leaves today with 800 cabin passengers.

Liquor taken from the foreign ships is held by the customs authorities until Washington authorities decide what is to be done with it.

In North Carolina there are just two grounds for divorce: infidelity and 13 years' abandonment if there are children.

THE LEXINGTON AVENUE TRAINING SCHOOL

Due to the untiring efforts of Miss Carrie M. Hart, principal, and Miss Mary Morris, assistant-principal, the pupils of the Lexington Avenue Training school, gave an elaborate program at their graduation exercises this morning.

At the close of the program Miss Helen Hogan, of the Normal School faculty, presented the promotion cards. The program:

Salutatory, Welcome
Alone Hankinson.
Song, May

Grades III, IV and V.
Recitation, The Winds

Eileen Cullinan, Ruth Lord, John Donoghue, David Mulaniff.

Recitation, The Plucky Seed
Margaret Cullinan.

Dramatization, "The Man and the Parrot."

William Barker, Alexandria Skapardas, Walter Hall, Lena Traverser, Irene Gingsras, Herbert Silcox.

Song, The Secret.

David Mulaniff, John Coughlin, John Donoghue.

Recitation, The Hours

Penelope Banacos, Helen Clifford, Jeanette Bellale, Constance Gingsras, Amelia Lord, Mildred Traverser, Bernadette Pelletier, Clifford Butterfield, John Coughlin, John Donoghue.

Song, Paddy Willow, Rainy Days

Mary Donoghue, Irene Gingsras, Muriel Gingsras, Allene Hankinson, David Mulaniff, Dorothy Pelletier, Bernadette Pelletier, Alexandria Skapardas, Director, John Hamblet.

Recitation, A New Year's Wish

Dramatization, "Makers of the Flag"

Allene Hankinson, William Barker, John Banacos, Ida Langlois, Stanley Carlson, Beatrice Andrew, Ruth Ed-

wards, Demetrius Poulleacos, Violet Bellale, Bernadette Pelletier, Dorothy Pelletier, Dorothy Lumpy
Songs: Boat Song, Indian Lullaby
Grates III, IV, and V.

NEW COURT OFFICERS
FOR MIDDLESEX

Sheriff John R. Fairbairn of Middlesex county yesterday announced the appointment of four new court officers to the Middlesex county courts.

The new appointees are Albert J. Adams of Marlboro, present deputy sheriff; George H. Stevens of Braintree, present deputy sheriff; Charles D. Robinson of Concord, at present an officer at Concord reformatory; and Horace W. Sexton of Somerville, present head clerk for Judge Cohen of the municipal court of Boston.

These appointments are subject to the approval of the justices of the superior court. The four new positions were created by legislative act of this year.

ON BOARD PRESIDENT HARDING'S SPECIAL TRAIN, enroute to Ogden, Utah, June 26.—(By the Associated Press.) Leaving the plains section behind, President Harding today journeyed into the state of Utah to spend two days, one in Ogden and Salt Lake City, and the other in Zion National park. The party is due to arrive in the Utah capital shortly before noon.

The program for the president's stay in Salt Lake as announced on the train provides a greeting from the school children in Liberty Park, a public reception at his hotel, golf during the afternoon, an organ recital at the Mormon Temple, delivery of a formal address at 3:30 in the Tabernacle, and departure shortly before midnight for Cedar City, Utah, for the visit to Zion park tomorrow.

The chief executive has selected taxation as the subject of the address he will make in Salt Lake largely because of Utah being the home state of the chairman of the senate finance committee, Senator Smart. Thus the president will define further the views of his administration on national questions.

TAXATION TO BE DISCUSSED

Pres. Harding Will Treat This
Subject in Utah Address
Tonight

A Round of Golf is Also on
the Schedule for This
Afternoon

ON BOARD PRESIDENT HARDING'S SPECIAL TRAIN, enroute to Ogden, Utah, June 26.—(By the Associated Press.) Leaving the plains section behind, President Harding today journeyed into the state of Utah to spend two days, one in Ogden and Salt Lake City, and the other in Zion National park. The party is due to arrive in the Utah capital shortly before noon.

The program for the president's stay in Salt Lake as announced on the train provides a greeting from the school children in Liberty Park, a public reception at his hotel, golf during the afternoon, an organ recital at the Mormon Temple, delivery of a formal address at 3:30 in the Tabernacle, and departure shortly before midnight for Cedar City, Utah, for the visit to Zion park tomorrow.

The chief executive has selected taxation as the subject of the address he will make in Salt Lake largely because of Utah being the home state of the chairman of the senate finance committee, Senator Smart. Thus the president will define further the views of his administration on national questions.

STOMACH AND NERVES HELPED

Tonic Treatment Was Just the Thing
in Mrs. Crane's Case

The benefits of a treatment with a system-building tonic are manifest in the experience of Mrs. Elizabeth Crane of No. 350 East Maine street, Rochester, N. Y.

"I was all run down, weak and nervous," says Mrs. Crane, "I suffered from indigestion and could not eat anything but bread. I suffered from nervous stomach, headaches and of course at night with stomach distress. There were severe pains in my limbs and I had a backache."

"I saw Dr. Williams' Pink Pills advertised and secured a box. It was a fortunate day for me for I began to improve in a short time. I feel like a different woman now. I sleep, eat well and never have any stomach trouble. I have gained strength and my nerves are much better. I cannot say enough for Dr. Williams' Pink Pills for they are the only medicine that ever helped me."

"The free booklet, 'Diseases of the Nervous System,' will interest you. Write for it today to the Dr. Williams' Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills or they will be sent by mail on receipt of price, sixty cents a box, A. D. C."

To Start on New System

Continued

has been taken from public revenue, \$10,000 of it will be expended on permanent repairs which will be a part of a new fire alarm system, when installed.

The report was submitted by Capt. James E. Conway, fire department inspector; Charles L. Gallagher, city clerk; and City Clerk Stephen Brown.

His recommendations follow: Recommend all apices in manholes be replaced.

Recommend that all wires in the city be replaced.

Recommend that all overhead wires in Middlesex be replaced.

Recommend that all underground wires be replaced.

Recommend that all new six-wire cables be sprung.

Recommend that all new six-wire cables be sprung.

Jack Daw's Adventures. Chapter 9

Jack was now swaying back and forth in the air. He was afraid every minute that he would drop to the ground. "That must have been the had giant," said Jack to himself. "Oh, I wish that Trixie or her pet leopard were here." Then Jack looked down and saw the had giant's face just below.

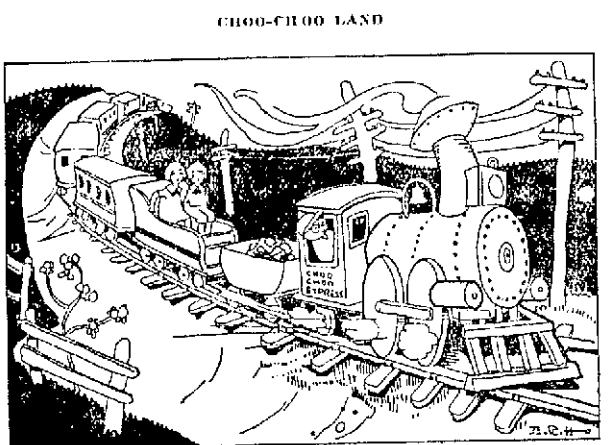

And as the same time the had giant saw Jack. "Ha, ha, ha, ho!" laughed the had giant. "I've caught you this time. I don't like little boys, and you'll soon be sorry you came to Giant Land." Of course Jack was frightened. Then suddenly Cucumber pecked around from behind a tree nearby.

"Stay right where you are," whispered Cucumber. "And I will save you. The had giant thinks very slowly and while he's thinking of what to do with you, you can get away." And he said this, a large pebble with a big beak flew from where Cucumber was, over to Jack's side. (Continued.)

ADVENTURES OF THE TWINS

THE CHOO-CHOO LAND EXPRESS WAS RUSHING ALONG SO FAST IT ALMOST TOOK THE TWINS' BREATH AWAY.

"All aboard for Choo-Choo Land!" called Mister Toon, the engineer. Nancy and Nick, who were talking to the Fairy Queen, hastily said goodbye and ran and jumped on one of the tiny cars of the Choo-Choo Land Express just as it pulled out of the station. It left every day at 10 o'clock and it was missed if you had to wait on it the next day at 10 o'clock. And it was important that the Twins should not be delayed, for they were off to hunt for Nancy's rag doll.

Ruby Jean was her name and either she had run away or been kidnapped or gone terrible had happened to her, for she wasn't in the play room or anywhere in the house.

Strikers Cripple Telephone Service

OPPOSITION TO POLICE STATION REPAIRS

COUNCILORS FEEL POLICE STATION REPAIRS WOULD COST TOO MUCH

Action on \$77,000 Project Deferred at Joint Meeting of Finance and Public Property Committees Last Night

Because of the excessive cost and the fact that after the work was done the structure still would be classed as old and antiquated, it is not believed that the city council committee on finance and public property will recommend alterations at the police station and district court building in Market street.

A joint meeting of these committees was held at city hall last night, with Building Inspector Francis A. Connor present to submit alteration plans and estimates, compiled by him and Architect Broco, consulting engineer for the county commissioners. The total estimate, for first and second floors, is \$77,000, \$42,000 of which is for the first floor where police headquarters and detention cells are located.

The committees deferred action on the proposition to allow for further consideration, but it was the general expressed opinion that the cost involved was too high. Better erect a new building and have something to show for money expended than to spend nearly \$80,000 in repairing a building that still will be old and inadequate when altered, was the feeling.

The finance committee, President James J. Gallagher, chairman, met after the joint meeting and after approving the recommendations of the special fire alarm committee, voted to approve the order for \$4800 as payment to members of the election commission for services rendered as members of the listing board for 1923.

GRADUATION EXERCISES TODAY IN SEVERAL OF THE LOCAL SCHOOLS INCLUDING GIRLS' VOCATIONAL

The graduation exercises of the Butler grammar school were held this morning in the school hall at 8:30 o'clock. The program was brief but was singularly impressive. The salutatorian, Ethel Miller, and the valedictorian, Henry Kenyon, both made short addresses and Frank Scott, the president of the class, presented the class gift. Two pictures constituted the class gift. "The Surrender of

Burgoyne," and "Washington Resigning His Commission." A few years ago it was decided that the class gifts should be pictures representing historical facts of this country and this year's gift was in line with that decision. The pictures will be hung in the school corridor along with those given by previous classes and when the collection is complete it will be

To The Public

We have already published statements as to the wages and working conditions of our telephone operators.

The proof of these statements is to be found in the way the operators have continued in the service.

In organizations fairly comparable with ours a labor turnover of less than 50 per cent. per year is considered good. By labor "turnover" is meant the number of people hired to replace those who for any reason have left.

Henry Ford points with pride to a labor turnover in his automobile plant of from 3 to 6 per cent. per month; in other words, from 36 to 72 per cent. per year.

In manufacturing industries in general, a turnover of less than 100 per cent. per year is considered satisfactory.

In our company in 1922 the turnover among women employees in our central offices was less than 16 per cent. for the year.

And of those who left, less than one per cent. left for the purpose of seeking other employment.

We submit these facts without argument in connection with the present controversy.

New England Telephone & Telegraph Company

GEORGE H. DRESSER, General Manager.

Thousand Tons of Coke Being Renewed in Six Pre-Filters at City Boulevard Filtration Plant

Nearly 1000 tons of coke is being shoveled out of the six big pre-filter beds at the city filtration plant on the Pawtucket boulevard and another thousand tons, or to be exact, 995, is being shoveled in to replace that which has been in place since 1915.

That fact, in itself may not mean very much to the average reader, but the process, which will be completed in September, is of vital importance to the department which gives Lowell consumers as fine a grade of water as there is in the country.

Just a word as to the cost of the coke replacement. When the beds now being taken out were built in

1915, the coke was purchased for \$4.75 per ton, or a total cost of approximately \$4550. The 995 tons being put in now will stand the water department nearly \$12,000, or at the per ton cost of \$12. This increase in cost of nearly 200 per cent is but one of the interesting phases of the work in progress.

In the process of water filtration coke pre-filters should take out about 40 per cent of all metal deposits, but the old coke being removed has become so packed down and so closely knit together that it has not been removing hardly 1 per cent. of the metal, but instead has thrown the entire burden

of cleansing over to the sand filters, thus making those beds take out the iron as well as the manganese.

At the present time two of the six coke pre-filter beds have been renewed, or, in other words the 160 tons of coke in each have been taken out and replaced by new coke of egg size, by comparing an old and new bed it is easy to see how the process is correct. In the new bed and incorrect in the old. Water filters through one of the new beds at such a speed as to eliminate all flood water on the top of the 12-foot packs, while in the old beds, working slowly because of the con-

TELEPHONE STRIKE SITUATION IS NOW WELL IN HAND SAYS GENERAL MANAGER

mitting that service was "spotty" G. H. Dresser, general manager of the New England Telephone & Telegraph Co., said early this afternoon that the strike situation throughout New England was well in hand and a steady increase in returning operators was being noted.

"Reports from all sections of our territory are reassuring," Mr. Dresser said. "They confirm our previous estimates which were based on our belief in the loyalty and steadfastness of the great body of our operators." Eugene R. McLaughlin, assistant manager of the traffic department, said that the toll room, with 400 operators on duty had handled the customary 22,000 calls between 8 o'clock and noon. This, he said, indicated that outside exchanges were running smoothly. Between 50 and 60 former telephone operators, students and operators loaned by business firms had raised the number of workers in the Main exchange to nearly normal, he said.

BOSTON, June 26.—Somewhat con-

BENTON AT ROTARY CLUB

State Attorney-General Gives Concise Resume of Law and Justice

Stresses Individual Responsibility to Support Prosecuting Officers

Attorney-General Jay R. Benton was the speaker today at the meeting of the Rotary club in the Boys' club in Dutton street.

President H. E. Davis presided at the business meeting which followed the luncheon. Robert Thompson handled the collecting for the Boys' club, which is now well past the \$3000 mark.

Capt. Jos. A. Malloy, commander of Lowell Post, American Legion, asked for the co-operation of the Rotary club in the reception of Col. Oweley, national commander of the American Legion, on July 12. The club assured Capt. Malloy of its support.

The committee headed by Charles D. A. Grassie that is taking the aged inmates of the Chelmsford Street hospital out for automobile rides, asked for more machines to continue the work, and also reported on the

disturbances as to the situation in Boston resulting from the strike of operators of the New England Telephone & Telegraph Co. today were made up by company officials and union leaders after the strike had been in effect for several hours. The company estimate was that service in Boston was about 40 per cent of normal, with vacancies being filled "by volunteers and older student operators." At strike headquarters, it was said that many of the girls who went to work this morning had quit later and the leaders declared that by night service in this city would be badly crippled.

The strike locally was admitted to be more serious in the Main, Beach and Richmond exchanges, all in the business district. The strike leaders said that they had completely tied up Beach and Richmond, while the company claimed that half the operators reported for work in the Richmond exchange.

In other Boston and suburban exchanges, there was apparently almost

Continued to Page 3

success of the previous rides that have been given.

Harry G. Pollard reported for the outing committee.

The meetings during the next two months will be held at various resorts around Lowell, with the next week's at the Vesper Country club.

Harry Pollard was the chairman of the day and introduced the speaker, Jay R. Benton, attorney-general of Massachusetts, whose address was as follows:

Having been in the department of the attorney-general as an assistant for four years, and then elected to the chief office itself, I want to make some observations upon certain present-day tendencies and their effect upon the administration of justice and the responsibility of citizenship in relation to such tendencies.

First, of course, it is the responsibility of all law-abiding citizens to support a prosecuting officer in every way in upholding the duties of his office. Unfortunately, all public officers elected by the people fall into the class of those whom we call politicians.

Very recently Lloyd George, speaking at the University of Scotland, came to the defense of the politician, and what he had to say was so apt that I am going to bring some of his statements to your attention.

He pointed out that a person who chooses to enter politics and to serve the public is seeking a hard but a high vocation. The qualities demanded by politics are intelligence, insight, imagination, concentration, industry and

JUDGE ENRIGHT SAYS UNREGISTERED CAR IS OUTLAW ON THE ROAD

Autoist Fined for Driving Car Without a Certificate of Registration—Today's Cases in the District Court

Declaring that an unregistered car is an outlaw on the road, Judge Enright this morning fined George Brown \$10 for driving an automobile without a certificate of registration. The defendant was arrested yesterday by Motorcyclist Officer Daniel Lynch after he had nearly knocked down a small boy riding a bicycle. He had a chauffeur's license with him when apprehended, but the registration could not be found. He claimed

he was not the owner of the car but was merely driving as an accommodation.

Officers Killey, Backley and McElroy were detailed to the South common yesterday afternoon in response to a complaint sent in by a neighbor that bootleggers were operating in the vicinity. As a result Patrick Maguire and two other men were arrested for

TYNGSBORO SUMMONS HELP TO FIGHT STUBBORN FIRE IN WANNALANCIT BOX SHOP

A stubborn blaze in what is known as the shavings building of the Wannalancit box shop in Tyngsboro, gave the firemen of Tyngsboro and North Chelmsford a stiff battle this afternoon. The fire was discovered shortly after 1 o'clock and while an alarm was being sent to the Tyngsboro department, employees of the plant attempted to put out the flames, but without success.

As soon as the Tyngsboro firemen arrived they sent in a call for help from North Chelmsford and the triple

combination motor apparatus of that town was sent to the scene. After battling the blaze for about an hour the combined departments succeeded in extinguishing it. The flames had worked their way through the shavings in the roof, but were prevented from spreading to other buildings. The Wannalancit box shop is owned by Davis & Sargent Co. of this city, and it was stated at the local office of the company that the damage was not great.

HOW THE "COPS" FOOLED THE FORTUNE TELLERS

Pretending to be innocent laborers and imbibing freely of a bottle of water, supposed to be "spirits," Officers Alfred Conroy and Frank J. O'Donoghue last night visited the fortune-telling parlor of Annie Stevens and Marie Mark in Middlesex street, near King, and arrested those two women on charges of larceny. The place had been under surveillance for some time, but it was not until last night that the officers deemed it expedient to get the evidence.

Dressed in shabby clothes, they entered the establishment, having a

number of marked bills in their pockets. While one of the women was telling the past, present and future of Officer Conroy, the other approached him and felt his pockets for the money. The fortune-teller informed Officer Conroy that he would live to be 80 years of age and would be the father of 12 children. This startling information cost the officer \$3, while Officer O'Donoghue was forced to part with \$1 for revelations made known to him. He was to have a beautiful home. When the women had accepted the money, the patrol with Sergeant Winn and Officer Moore were signalled and the pair arrested. In the district court this morning they were allowed to go with the understanding that they get out of the city within three days. Failure to do so will mean three months in the house of correction for each.

SENDS PRAISE

Mr. W. H. Benson of Baltimore, had considerable worry about his daughter. For over a year he was kept in anxiety, but it seems from the following letter that he and his daughter are both worry-free now. "I have been talking about your Dr. True's Elixir. It is great stuff! The Elixir is doing good work for my daughter, please send us two bottles. Yours for health!"—W. H. Benson.

Scores and scores of such letters show us that Dr. True's Elixir has been most successful for use in relieving constipation. Watch these symptoms: Constipation, sour stomach, biliousness, cramps, eyes heavy and dull, bad breath, all gone feeling, headaches. They may lead to more serious conditions—bad colds, grippe, etc. To ward off or make attack light take Dr. True's Elixir. 40c—60c—\$1.25—Adv.

Every Woman Is Buying Dresses

ALL RECORDS HAVE BEEN BROKEN

In our Dress Shop. For the past six weeks our business has doubled over a year ago. We have doubled our sales force—still we are unable to wait on all the women who come to our Dress Shop.

PLEASE SHOP IN THE MORNING

This will give us a chance to give you better service. It will enable our trained salespeople to give you the kind of service we like to give our customers. We have prepared some wonderful values for this week's selling.

SEVEN MORE SHOPPING DAYS BEFORE THE HOLIDAY

OUR BUYER WHO IS IN NEW YORK EVERY WEEK brought home some wonderful dresses—and they are all wonderful values.

We have also reduced many of the individual dresses which we have in stock and marked them at prices that will mean quick selling. Shop early is our earnest advice!

AIR FORCE FOR HOME DEFENCE

England to Be Ready for Any Attack in Air in the Future
Prime Minister Says

Premier Baldwin Makes Such Announcement in House of Commons

LONDON, June 26.—(By the Associated Press) Prime Minister Baldwin announced in the house of commons this afternoon that the government had decided to establish a home defense air force sufficiently strong to defend the country adequately from attack by the strongest air force within striking distance.

The Telephone Strike

Continued

normal service, judging from the promptness with which calls were put through, with a few exceptions. The chief of these exceptions were Waltham and Newton, where a large percentage of the operators struck and service was badly crippled. These two cities were described as virtually out of telephone communication with the world during the morning. Strike leaders claimed that the Newbury exchange was tied up, but company officials asserted that service was normal there.

Outside of Boston the strike was virtually without effect in Maine, New Hampshire and Vermont while it had almost crippled service in Pennsylvania and New Jersey. In New York, the strike was in large numbers of operators striking work in several Massachusetts cities. The strike leaders up to noon had failed to report on outside conditions.

Figures given out by the telephone company at 11:30 a. m., gave the following as representing the percentage of operators remaining at work in the Massachusetts cities and towns indicated:

Worcester, 10 per cent; Springfield, 25; Pittsburg, 50; Lynn, 25; Salem, 20; Brockton, 25; Marlboro, 70; Newburyport, 50; Westfield, 40; Andover, 35; Milford, 25; Lawrence, 20; Rockland, 50; Fall River, 50.

Conditions in Lowell, North Adams, Pittsfield, Greenfield, Taunton and the Cape Cod district were described by the company's statement as normal.

Strike pickets were stationed near all exchanges in this city and a large number of outside points. Members of the old local T. A., which is not in sympathy with the strike for increased wages and shorter working hours had counter-pickets at some of the exchanges in Boston, who tried to counteract the effects of the strikers to prevent girls from going to work. During the afternoon, there were no serious clashes, although there were a few quarrels, although there were a few quarrels, although there were a few quarrels.

An unknown number of nickels were spent fruitlessly by persons who attempted to put in calls from slot machines in the districts seriously affected by the strike, such as Beach and Richmond. Central did not answer any nickel calls and dropped and the machine resisted all efforts to get back the money.

Miss Annie Molloy, president of old T. A. local, Boston Telephone Operators' union which declined to join the strike, said she was well satisfied with the reports that came to her of the condition in Boston exchanges.

Large Cities Hardest Hit

BOSTON, June 26.—The telephone operators' strike, which started at 7 a. m. today, showed its greatest effect, so far as cities outside of Boston are concerned, in Providence and Pawtucket, B. I. Worcester, Springfield, Salem and Brockton. Other cities in Massachusetts, Maine, Vermont and Rhode Island and in New Hampshire and New Brunswick reported few operators on strike, and virtually normal service.

At Providence, the second largest city in New England, telephone service was virtually crippled during the forenoon. Nearly all the operators were on strike. At Pawtucket, where only two operators reported for the early shift, the company had brought in some workers from outside the city.

In Springfield, the second largest city in New England, telephone service was virtually crippled during the forenoon. Nearly all the operators were on strike. At Pawtucket, where only two operators reported for the early shift, the company had brought in some workers from outside the city.

Other places in Worcester county reported normal conditions.

Of the early shift of 25 in Brockton, only five reported for duty this morning. Fifteen men were being employed at the exchange. Service was virtually normal in towns near Brockton, except Middleboro, where 13 operators were on strike and also in the Plymouth district.

In Lawrence, union leaders said only three or four operators out of 15 employed on the early shift had reported for work. The company admitted that some were out, but said that a new force was being built up.

Eighty per cent of the operators at Salem were on strike. Partial service was maintained. Mrs. Blanche R. Cross, president of the Salem local of the striking union was at work and said she had resigned her position. The vice president was in charge of the strike. Cities near Salem reported all operators at work.

There were conflicting claims at Manchester, N. H. The union claimed that 60 operators were on strike, while the company declared that which boards were fully manned. A company statement said that service throughout New Hampshire was normal and that all operators had reported for work at the usual time.

In Maine no interference with service and no operators on strike were reported, except for the walking out of half a dozen operators in Portland and one in Lewiston. Vermont reported no indications of a strike.

Salem Reports 80 Per Cent Out

SALEM, June 26.—Eighty per cent of the 145 operators in the Salem exchange are out on strike. The local switchboard is being operated by a crew of local employees including some of the men in the department. Important toll calls are being cared for by a crew of six.

The most important development was the admission by Mrs. Blanche R. Cross that she had resigned as president of local 16 A, the striking union and she was one of those at work at the exchange today. Miss Gertrude A. Cabell, vice-president, is in charge of the strike. The exchange is picketed but there is no disorder.

No trouble is experienced in the greater Salem place, normal crews being reported at Peabody, Beverly, Danvers and Marblehead.

No Toll Calls Accepted

LAWRENCE, June 26.—Local telephone officials stated that the work of building up the depleted force is already under way. Both permanent and temporary positions are offered girls over 17, with or without experience. It was announced, up to the middle of the morning, no toll calls were accepted at the local exchange.

It was said that the public is following the request of the management that no more calls be put in than is necessary.

Haverhill Running Full

HAYVERHILL, June 26.—Manager Bennett of the Haverhill exchange says that his office is running 100 per cent. Every employee remains loyal to the company and not a single operator has quit her post.

Filling Strikers' Places

BOSTON, June 26.—An estimate that the telephone service in Boston is being filled by the company's own men.

THAT SHIMMY TYPEWRITER GLIDE!

Miss Ramona Wright, typewriting teacher in the Lapeer (Mich.) high school, has brought jazz into the classroom. She uses a phonograph to aid pupils. "The jazzier the record, the greater the speed attained," she says.

GREAT CARE IS NEEDED IN CUTTING ART

Never attempt to cut out on a small space. If you have not a cutting table, use the kitchen table. Use pins lavishly and baste freely and carefully. If you insist upon making linings instead of buying them ready made, make several of a

Be sure that all bias effects, skirt breadths, bodices or trimmings are really bias and baste through the centre always, cut exactly on a straight diagonal line from corner to corner of a square of goods. Lay a fold down the centre of the back lining and a narrower one from the shoulders in front. Do not stretch any part of the material, but have all linings a trifle loose.

Match the parts carefully together and sew them from the bottom up, both skirts and bodices. Never stretch a curved seam. Make the shoulder seams as nearly a straight line as possible, but with the front a trifle shorter than the back. Then in sewing stretch the front to fit, basting with small stitches. This stretching process gives a hint of a curve to fit the hollow of the shoulder.

If the arm curve in the lining is too large or bulges, make a tiny, phere,

triangular fold, but the outside material must be cut to fit, as nothing can be done to alter it if it is too large. If the lining or outside is too tight, cut the curve a little.

Putting in sleeves is one of the most difficult processes in dressmaking. Run a thread around the armhole to prevent stretching. Put the sleeve into its armhole on the fabric, pinning carefully. Remove, baste, then try on again.

No one can fit all sleeves, but for the long, plain variety, cut so that the portion between the centre sleeve and the centre shoulder is on the straight of the goods.

Do not hem or bind selvages, else they will pucker. Seal them or leave plain. Stretch all skirt seams and sew with a long stitch.

Where possible always put a good edge with a straight, but if two curved edges come together be careful not to stretch them.

CHANGES IN TRAIN SCHEDULE

There are two changes in the new train schedule of the Boston & Maine railroads, which went into effect yesterday that affect the Lowell service. While no trains have been taken out or new ones added, the train which formerly left Boston for Lowell at 4 o'clock has been changed to 4:20 and the former 2:22 train for Boston leaves at 2:49 p. m., daylight saving time.

It is estimated that the atmosphere of the planet Venus contains less than one-thousandth of the amount of oxygen present in the earth's atmosphere.

SUMMARY OF EARLY MORNING A. P. NEWS

Seven deaths and 53 injured is the toll of the elevated train's 35-foot plunge in Brooklyn.

Premier King tells Canadian commons at Ottawa that United States has been invited to further discuss co-operation in liquor law enforcement.

MOONLIGHT BATHING AT CITY BATH HOUSE

Hundreds of children and adults kept cool in the waters of the Merri-mack last night long after the municipal bath house had closed its doors at 5:30 o'clock. It was real moonlight bathing, too, for a lustre moon, full Thursday night, added beauty to the scene.

Last night was one of the hottest of the season, although it cooled off perceptibly toward morning when gathering clouds forecasted rain that failed to materialize. There is no harder to moonlight or late evening bathing at the city pool, although no suits can be obtained at the bath house after 5:30 o'clock, which is the scheduled time for closing.

LACE AND VOILE

An afternoon frock of white voile is elaborately trimmed with black lace and has a girdle of crimson velvet.

PITTSBURGH HOLOCAUST'S RIVER OF FIRE

A bolt of lightning and a tank of oil. Well, here's how they mixed in a Pittsburgh refinery. Flames spread quickly to other giant containers. Many were injured. Property loss was estimated at \$200,000. It looks like the river's on fire. But it's thousands of gallons of burning oil. Only a change in wind saved the big Sharpshurg bridge, across the Allegheny river.

WARNING

You who use Palmolive Soap use it for beauty's sake. Be careful that you get it. There are many soaps made to deceive you. They imitate the shape and color. Names are coined to sound like Palmolive. Numerous soaps—some of them wretched soaps—are put in this guise to mislead you.

Our interests do not matter, but yours do. Your demand is for Palmolive, because of what it does. You are seeking certain proved results. And you are cheated when you get a soap which can't bring those results.

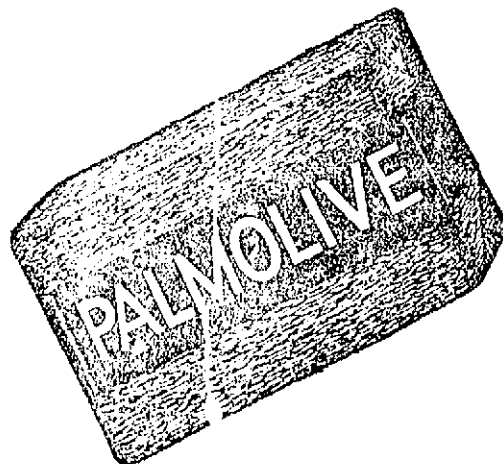

Palmolive Soap has world-wide fame because it aids complexions.

The envied results, seen everywhere, have won millions of people to it. Thus Palmolive became the world's leading toilet soap. Not merely because of olive oil—that's ages old. Not merely because of palm oil—Cleopatra used that. But because our experts found a way to give those oils unique efficiency in soap.

It is Palmolive Soap that has won beauty lovers as no other soap ever did. It is the Palmolive blend—based on 60 years of study—that brings those desired results. It is Palmolive which, by enormous production, gives you a 25-cent quality for 10 cents.

That is what won you—that is what you want. A commonplace soap without those virtues will not suit or serve you. Then be careful. Note the name carefully. Be sure you get the wrapper shown below. Don't let anybody cheat you on a thing that means so much.

He's a Mapl-Flaker

Mapl-Flake for breakfast,
Mapl-Flake for lunch,
Mapl-Flake for supper
Gives us kids the "punch."

There are lots of folks looking for "the punch"—and the surest way to get it is to eat the right things for breakfast.

The "Mapl-Flakers" meet every morning at the breakfast table. Each one eats a big bowlful of Mapl-Flake and starts out the day feeling fit.

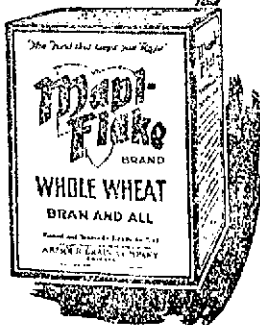

Mapl-Flake is 25% Bran. It is more than nourishment—it is a whole wheat flake with all the bran left in. There is enough bran to make a natural, harmless laxative, yet you have the satisfaction of eating tasty, appetizing, nourishing breakfast food.

Nourishment and bran combined—good eating while you "take your bran" without knowing it. No wonder there are so many "Mapl-Flakers." Join them—a package from your grocer entitles you to membership. The dues are small.

that keeps you "Right"

Poverty Forces War Hero's Widow To Sell His Medals

LADY COWANS WHO HAS BEEN POVERTY TO PUT UP THE MEDALS AND AWARDS (BELOW) WHICH HER HUSBAND, GENERAL SIR JOHN S. COWANS, WON DURING HIS LIFETIME

BY MILTON BRONNER

LONDON, June 26—Honored and idolized during his life; now almost completely forgotten in his death, General Sir John S. Cowans, national hero, is the central figure of another grim tragedy of the war's aftermath.

It's the tragedy of a nation's ingratitude; and its victim is the general's widow, Lady Cowans, who has been forced through dire poverty to take the medals and awards which her husband won and put them up for sale.

Forty years ago John Cowans first joined the British army and when the World War broke out he was made quartermaster general of all the British forces.

When the war was over the general became ill. He had to go into debt to pay his doctor's bills, for the war had played havoc with his \$40,000 estate.

A ray of hope came when awards for heroism were being handed out. Cowans was in line for something. But while others were made nobles and given huge money grants, Cowans was neglected.

He died a few months ago. There was a large military funeral, kind words and then complete forgetfulness.

The widow struggled along for a while. But her circumstances became worse. She had little left other than

the medals which her husband had won. So she put them up for sale for the money they might bring.

The premier offered Lady Cowans an extra pension from the civil list, amounting to \$500 a year, to be paid quarterly. She immediately refused.

A number of influential men, deeming the nation ungrateful, are trying to make amends. But Lady Cowans says it is too late.

The Telephone Strike

Continued

was about 40 per cent. of normal, was made at the general offices of the company on Oliver street at 11 a. m. Vacancies in the exchanges were being filled. It was said, "By volunteers and by older student operators."

Plymouth District O. K.
BROCKTON, June 26—Telephone operators of the Plymouth district, including exchanges at Manomet, Plymouth, Kingston, Duxbury and Carver, were all at work this morning, according to advice from the chief operator of the district at Plymouth. Pickets were placed at some of the exchanges by the Brockton union. They arrived between 1 and 2 this morning.

Providence Paralyzed
PROVIDENCE, R. I., June 26—The

strike of telephone operators was practically 100 per cent. effective in this city. According to union leaders, not a single operator remained at her post after 7 this morning. Service was paralyzed. Small groups of young boys and girls were taken to several of the exchanges for instruction. There was no disorder. Pickets were stationed outside each exchange after midnight, but they confined themselves to informing those who entered that a strike was in progress.

Strikers From New York
BROCKTON, June 26—Out of 31 girls usually employed at the telephone exchange at 9 o'clock only two had reported for work and these were assisted by two men. The union employees say the girls at work have been imported and came here in automobiles guarded by officers. Sheriff Andrews will allow only three girls to do picket duty near the exchange.

Springfield Hit Hard
SPRINGFIELD, June 26—Early reports received here by officials of the New England Telephone and Telegraph Co., from the so-called Springfield district were to the effect that only in this city was the strike of operators seriously felt. In Northampton, where there had been some apprehension of trouble, it was reported that the normal number of operators remained at

FRECKLES AND HIS FRIENDS

work. Most of the small exchanges in this part of the Connecticut valley were said to be unaffected, the operators having previously announced their intention to remain on duty.

Claims of the company and union leaders were sharply at variance regarding the response to the strike order in the Springfield exchanges. The strike leaders claimed that 100 of the 530 operators were out, while the company reiterated its earlier estimate that 40 would remain. Emergency service was being given this morning with a promise of normal service later in the day.

Normal in Northampton
NORTHAMPTON, June 26—The strike of telephone operators here began at 7 o'clock this morning when a small number of the 42 girls employed at the Northampton exchange failed to report for duty. At 9 o'clock this morning, according to Manager John F. Shaw, there were 10 or 12 operators out, but the switchboard was covered, the manager reported, and service was normal. Some of the strikers were on picket duty outside the building, and yelled at the girl who reported to work at 7 o'clock. There was no other demonstration, however. A police officer was on duty in front of the exchange.

Police Guard Strikers
FAWKHAM, R. I., June 26—Out of 21 girls usually employed at the telephone exchange at 9 o'clock, only two had reported for work and these were assisted by two men. The union employees say the girls at work have been imported and came here in automobiles guarded by officers. Sheriff Andrews will allow only three girls to do picket duty near the exchange.

No Strike in Greenfield
GREENFIELD, June 26—"Everything is O. K. in our exchange," said Manager John F. Enwright this morning. "All our operators are loyal and we look for nothing except normal conditions."

Andover To Help Lawrence
ANDOVER, June 26—Telephone company officials stated this morning that the local telephone exchange is not affected by the strike. An effort is being made to handle as many as possible of the Boston calls from Lawrence through the Andover exchange.

Strikers Out in Worcester
WORCESTER, June 26—The telephone service in Worcester was started according to schedule at 7 o'clock today. The officials of the union reported shortly after 7 o'clock that only 25 operators were at the switchboards, while Manager Clarence J. Abbott claimed he had 60 at work. The union claims 10 of the operators have quit work.

Lawrence True To Form
LAWRENCE, June 26—Local telephone operators began their strike at 7 o'clock this morning. During the first hour, only three or four of about 18 girls went to work, according to the members of the union. Manager Fred C. Cheney of the company stated that there were some working but he would not say how many. The girls are doing picket duty on two, hour shifts, eight or ten working at a time.

Normal in Fitchburg
FITCHBURG, June 26—Only four out of 25 operators scheduled to report for duty by 7 o'clock this morning. The company stated that the company's switchboard at the local switchboard of the New England Telephone and Telegraph Co., according to Manager Kenneth P. Sibley, the 25 operators reporting arrived at work at 6:30, 7:30 and 8:30.

Made from Fruit Juices and Tonics

of Portland, all telephone operators in Maine were on duty early this morning except one at Lewiston. District Commercial Superintendent Charles W. Dufresne stated. There was still some "shuffling" from which reports were to be received later. There are about 500 operators in the state. The only evidence of the strike two hours after it went into effect here was the presence in front of the exchange to the telephone exchange of two pickets, one of whom was said to have been sent from Boston.

It was understood from other official sources that about six operators here had struck.

Pound Offerings of Flanagan of Broadway to All Corners of Lot—"Cozy" Dolan Returns to Mound After Several Weeks' Absence and Shows Old-Time Form—Lord's Men Now Have Top Place Clinched

NEXT GAME
Thursday night: Centralville vs. Y
M.C.I.

Greeneback of the Albert Westcotts did a comeback for the Lord Eastgate last season. Originally a member of this team, he has been an assistant on the lineup for some time, but he stimulated his teammates against the Keller team by coming in and making a pile of hits and making one pitout, the only ball that came his way in left field. "Buck" Connor, who was turned at first base with the same ability that has stamped his work as a player, while John Smith and Ray Reynolds excelled at second base. In place with one protective hit, Ray Reynolds contributed a classic catch in the outfield. The team was led by diamond and nailed a potent Texas leaguer which cascaded from the hands of Greeneback, and was a sensational job of work and was more difficult of accomplishment than it actually looked. The first short out was made by Greeneback, and of this band of playing as he has turned the trick on more than one occasion.

For the roadways, Illinois was

THE STATE AMATEUR

GOLF CHAMPIONSHIP

John Hylar of Aspen and Tom Ward of Laramie were the lowly players who won the 1936 state amateur golf championship, which started its ninth annual tournament at Blue Bird. The first winners, 1928, both had been high school players. The first non-high school players to win were the present champions, who had been in the tournament. Frank Hylar, 1935, the holder, will be joined this year by Jesse Gault and Wendell, the favorite.

is preparing for his meeting with

Men's Palm Beach Suits, in all the New-est Shades and Models—Regulars, Straws, Longs. These suits are made and tailored to stand hard wear. All fast colors. Sizes 34 to 50.

S. H. HARRISON CO.
166 Central Street

**NEWPORT JOHNNY BROWN
VS. BILLY MURPHY**

Webber to Wood street and a four-wire cable from Hadley to Wood

That one duct be laid in Middlesex street from Stevens to Marginal street, connecting with Box 512.

That one 6-wire aerial cable be installed from Box 512 to the house of Deputy Chief Crowley in Marginal street.

That wires be laid in ducts of the N. E. Tel. and Tel. Co. from Whidder and Pine streets to the corner of Washington and Pine streets.

That cables be laid underground in Salem and Hawthorne streets from the corner of Salem and Powers streets to the corner of Hawthorne and School streets.

The recommendations approved by the committee in so far as they provide for putting waste underground, will be in the line of permanent conservation and will be a part of a new system. This takes only \$2600 to be expended for temporary repairs, which is considered a fair amount in consideration of what will be accomplished.

Jack Daw's Adventures. Chapter 9

Jack was now swaying back and forth in the air. He was afraid every minute that he would drop to the ground. "That must have been the bad giant," said Jack to himself. "Oh, I wish that Tris or her pet leopard were here." Then Jack looked down and saw the bad giant's face just below.

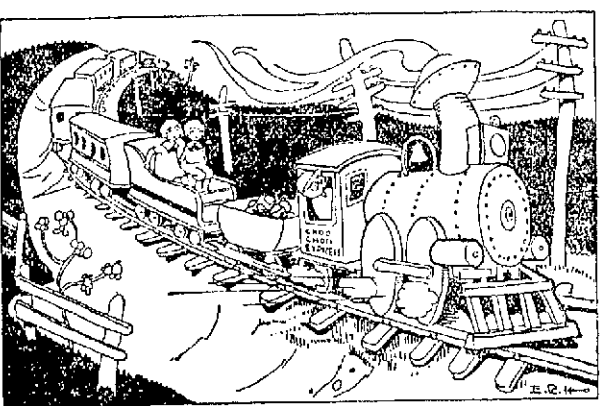

And as the same time the bad giant saw Jack. "Ha, ha, ha, ho!" laughed the bad giant. "I've caught you this time. I don't like little boys, and you'll soon be sorry you came to Giant Land." Of course Jack was frightened. Then suddenly Cucumber poked around from behind a tree nearby.

"Stay right where you are," whispered Cucumber. "and I will save you. The bad giant thinks very slowly and while he is thinking of what to do with you, you can get away." And as he said this, a large pelican with a big beak flew from where Cucumber was, over to Jack's side. (Continued.)

ADVENTURES OF THE TWINS

by Olive Roberts Barton

"All aboard for Choo-Choo Land!" called Mister Toos, the engineer. Nancy and Nork, who were talking to the Fairy Queen, hastily said goodbye and ran and jumped on one of the tiny cars of the Choo-Choo Land Express just as it pulled out of the station. It left every day at 10 o'clock, and if you missed it you had to wait until the next day at 10 o'clock. And it was important that the Twins should not be delayed, for they were off to hunt for Nancy's rag doll. It left every day at 10 o'clock, and if you missed it you had to wait until the next day at 10 o'clock. And it was important that the Twins should not be delayed, for they were off to hunt for Nancy's rag doll. It left every day at 10 o'clock, and if you missed it you had to wait until the next day at 10 o'clock. And it was important that the Twins should not be delayed, for they were off to hunt for Nancy's rag doll.
